

Teacher Professional Development Pathways

Pathway 1 – Stepping into curriculum leadership

This professional development course is designed to support teachers wanting to transition into subject leadership roles. These sessions will introduce practical guidance in the responsibilities of subject leadership and strategies for leading their subject effectively.

Our experienced leaders introduce teachers to core responsibilities of subject leadership, effective approaches to curriculum monitoring and leadership skills beyond the classroom that will inspire and guide their team. At the end of each session, we will be offering individual coaching to further support delegates in applying these leadership strategies effectively within their own school settings whilst also building confidence in their subject leadership.

There will be 3 face-to-face sessions throughout the year; these dates will be June 11th 2026, October 1st 2026 and ending 28th January 2027.
All sessions will take place during the school day 1.30 – 3.30pm.
The course will run in three different Compass Schools and you will have the opportunity to look around each school as part of the session.

The cost is free to Compass employees. There is a £50 fee for the course for all teachers outside of the Compass Partnership of Schools
